

Your super, your tomorrow.

Join a super fund that supports you at every stage of life

AMP Super Fund

As you work hard to create your tomorrow, you need a super plan that can support you at every stage of life—from starting out in the workforce all the way through to enjoying a well-earned retirement.

AMP has worked closely with your employer to develop an AMP SignatureSuper® plan that can support your financial wellbeing.

Flexible investment options - Let us do the work for you

AMP MySuper Lifestages is designed to grow and protect your super as you get older. It takes the hard work out of deciding how to invest your super, by offering a single investment option tailored for your age. When you're younger it seeks higher returns through growth assets such as shares. And then as you approach retirement, the mix shifts to more defensive assets like fixed interest to help reduce risk.

...or choose your own investment options

Set your own level of risk to match your goals and stage of life. Select from our range of 27 options—including single-sector and multi-sector investment options utilising active multi-manager or index style investing. We also offer cash and term deposits.

Here's how MySuper Lifestages works

You can switch between investment options at any time—a list of available options can be found in your [Investment Guide](#). The performance of your super fund can make a big difference to your lifestyle when you retire. You can see how all of your investment options are performing by visiting SignatureSuper.amp.com.au

Transparent fees

The administration and investments fees in your plan are as follows. To understand all other fees and costs which may apply, such as transaction cost allowances, performance-based fees and insurance fees you should read your **welcome letter** in conjunction with the **fees and other costs** section of the **PDS and Investment Guide**.

When you leave employment
